Introduction to Cyber Security

SYLLABUS

Chapter	Chapter Titles	Summary Description
1	The Need for Cybersecurity	<ul style="list-style-type: none">Learn the need for and importance of cybersecurity.Understand the characteristics and value of personal data, and data within an organization.
2	Attacks, Concepts and Techniques	<ul style="list-style-type: none">Recognize the characteristics and operation of a cyber attack.Interpret the trends in the cyber threat landscape.
3	Protecting Your Data and Privacy	<ul style="list-style-type: none">Understand how to protect devices from threats.Master how to safeguard your privacy.
4	Protecting the Organization	<ul style="list-style-type: none">Learn techniques to protect organizations from cyber attacks.Recognize the behavior-based approach to cybersecurityExplain Cisco's approach to cybersecurity.
5	Will Your Future Be in Cybersecurity?	<ul style="list-style-type: none">Understand legal and ethical issues in cybersecurityExplore the opportunities for pursuing an education and a career in cybersecurity.

ASSESSMENT PROCEDURE

Introduction to Cyber Security covers cyber trends, threats and staying safe in cyberspace, protecting personal and company data.

- ✓ Contains 5 Modules.
- ✓ Assessed with 4 Quizzes and 1 Final Exam.

Course Outcomes

Introduction to cyber security is designed for people who want to learn the knowledge and skills they need to work in Information Technology (IT) and networking at the end of this course students are able to

1. Understand different types of malware and attacks and how organizations are protecting themselves against these attacks.
2. Explore the career options in cyber security.

Why Cybersecurity?

<p>Everyone Needs to Know</p> <p>Even the grandmas on Facebook need to know and practice basic security hygiene, because what happens everywhere on the Internet can eventually affect us all.</p> <p><small>Source: http://www.cisco.com/c/en/us/solutions/cyber-security/2017-01/02</small></p>	<p>Skill Shortage</p> <p>A report from Frost & Sullivan and (ISC)² found that the global cybersecurity workforce will have more than 1.5 million unfilled positions by 2020.</p> <p><small>Source: http://www.frost.com</small></p>	<p>Hot Jobs</p> <p>10 IT skills that Employers need in 2017 – cybersecurity is rated top 3 skills that will be in high demand for 2017. Average salary for entry level jobs range from US\$64k-\$113k p.a.</p> <p><small>Source: http://www.cisco.com/c/en/us/solutions/cyber-security/2017-01/02</small></p>

Introduction to Cybersecurity

Course Overview

The Introduction to Cybersecurity course explores cyber trends, threats and staying safe in cyberspace, and protecting personal and company data.

Benefits

Learn how to protect your personal data and privacy online and in social media, and why more and more IT jobs require cybersecurity awareness and understanding.

Learning Components

- 5 modules
- Interactive and instructional content
- 8 Activities and 7 lab exercises that reinforce learning
- 4 quizzes and 1 final exam
- Links to related resources

© 2017 Cisco

Features

Target Audience: Secondary and 2-Year college students, general audience

Prerequisites: None

Instructor Training Required: No

Languages: Chinese-S, English (2.1), French, German, Hebrew, Italian, Japanese, Spanish, Portuguese

Course Delivery: Instructor-led or Self-paced

Estimated Time to Complete: 15 hours

Brief Report

Jawahar Knowledge Centre organized an Online Certificate Course "Introduction to Cyber Security" through CISCO Networking Academy Portal. The duration of the course is 1 Month [30 Hours). Introduction to Cyber Security course is designed for people who want to learn the knowledge and skills they need to work in Information Technology [IT) and networking. 80 students of III B.Sc- MPCs & B.Com (CA) are registered in this course. Şri D. Suresh JKC-Full Time Mentor acted as the Master Trainer for this Course. During the course, students are evaluated using both formative and summative assessments and one final exam is conducted for the course completion in online mode. A total of 25 students successfully completed the course after completing all the course requirements and assessments.

Instruction For Participants for Taking the Test

Procedure to be followed by the Participants/Students for taking the Online Test

Steps for taking the Test:

Step 1:

- Login to the Student Dashboard (<http://spoken-tutorial.org/participant/login/>), Go to 'Ongoing Test' and click 'Enroll', The invigilator will mark the Attendance for you.

Step 2:

- Please refresh your browser screen after the invigilator marks your attendance, click 'Enter into Test' in the Ongoing test tab. It will take you to a new window (Spoken Tutorial Online Test Center).

Step 3:

- After you enter your Username and Password, you will see the Homepage where you will get the list of Tests available for various FOSS / Courses. Click on the Test which you want to give.

(Note: Read the instructions which appear on the screen.)

Step 4:

- Click on "Attempt Quiz Now". Then click on "Start Attempt".

Step 5:

- At the end of the test, click on "Finish attempt" in the Quiz Navigation Panel. You will get to see "Summary of Attempts".
- It will also show if you missed any questions. You can click on "Return to attempts" or you can go back and attempt by clicking on the particular question number.

Step 6:

- Confirm by clicking on "Submit All and Finish" once you have completed the test.
- You will get your test score on the spot.

Note:

- Duration of the test will be between 20 mins to 45 mins, depending on the FOSS selected for the Test.
- Answer all the questions, don't leave out any.
- Please note that you will be able to view the certificate only on scoring 40% or above.
- Login with your Username and Password in the 'Participant Dashboard' for downloading the Certificates.
- Participants who don't pass in the Test, will get a chance to re-attempt the Test after a gap of 15 days.
