HEALTHY PRACTICES

- With regard to academic activities, we stick to the academic plan designed by the Head of the Department from the very beginning of the academic year. The Principal is assisted by the academic council to execute the academic activities, such as:
 - a) the review of the coverage of syllabus,
 - b) the diary of the staff members checked up in weekends by H.O.D. and subsequently verified by the Principal once in a month.
 - c) the preparation of synopsis and question banks,
 - d) individual annual academic plans.
 - e) conduct of monthly tests, mid term and Pre-final examinations,
 - f) conduct of remedial classes
 - g) seminars, symposiums, educational tours.
- The remedial classes are arranged for academically backward students

- Encouraged the students to study text books and prepare notes on their own practice. This improved the result and educational standards of students.

VALUE BASED EDUCATION

- Human life in contemporary society or world is fraught with “Narcissism” resulting in psychological distresses, making the people by and large seek elusive happiness. Particularly indiscipline, lack of seriousness in studies and lack of concern for the society are rampant in the student community. So, the department has realized the necessity of imparting value – based education which would go a long way in arresting the unrest and helping the students realize their goals. Above all, the students are trained to be good, responsible and honest citizens.
- Press – Clippings and excerpts from scriptures of different religions are kept in the departmental library to promote the spirit of Secularism.
- Encouraging students to write “Quotable Quotes” on black – board every day.
- Concerning National Integration, Communal Harmony and International understanding and brotherhood mainly in the context of globalization.
