Webinar on
"Employability Skills and Emotional Intelligence"

On 26th, May-2020 (Tuesday) at 10AM to 1PM

Organized by:
Department of Computer Science & Jawahar Knowledge Center (JKC)

About the Webinar:

Most employers look for certain skills and qualities in job candidates in addition to academic qualifications. Known as employability skills, these skills may not be job-specific, but they play an important role in improving your performance and value in the workplace. They can also have an impact on your ability to progress in your career. In this Webinar the resource person will explain the employability skills you need to develop in order to enhance your job.

Emotional intelligence is the ability to understand, use, and manage your own emotions in positive ways to relieve stress, communicate effectively, empathize with others, overcome challenges and defuse conflict. Emotional intelligence helps you build stronger relationships, succeed at school and work, and achieve your career and personal goals. It can also help you to connect with your feelings, turn intention into action, and make informed decisions about what matters most to you. Through this Webinar the resource person will guide you to improve your emotional intelligence and thereby help you to connect with your feelings, turn intention into action, and make informed decisions about what matters most to you.
