JKC-Webinar on Cyber Security

S. No	Name of Certificate Program	No. of times offered	No. of students Registered
1	Webinar on Cyber Security	1	98

Brief Report

Cyber security is the practice of protecting systems, networks, and programs from digital attacks. These cyber attacks are usually aimed at accessing, changing, or destroying sensitive information; extorting money from users via ransom ware; or interrupting normal business processes.

Implementing effective cyber security measures is particularly challenging today because there are more devices than people, and attackers are becoming more innovative. Total 98 students from our institution participated in this webinar.
