DEPARTMENT OF COMMERCE
A REPORT ON PEER TEACHING BY THE STUDENTS

One of the finest methods to master a subject is through peer teaching. A student instructs another student in this mode of instruction, with the former being an expert and the latter a beginner. This enables the student to learn without relying on the teacher and allows the teacher and student to review the material once more, in accordance with the adage that "to teach is to learn twice."

Through the direct interaction between students, peer teaching promotes active learning and participation within themselves. Student teachers enhance their own depth of knowledge in the topic by instructing others.

Objectives of Peer Teaching:

1. To boost self-esteem and improve social and communication abilities among the students.
2. To encourage students to think positively about the future and to believe in the chances that are open to them.
3. To strengthen social ties and foster a feeling of community by encouraging peer networks among the students.

Benefits of Peer Teaching:

For students, peer learning can lead to improved attitudes and a more personalized, engaging, and collaborative learning experience, which can lead to higher achievement. For peer teachers, the experience can deepen their understanding of the subject and impart confidence.

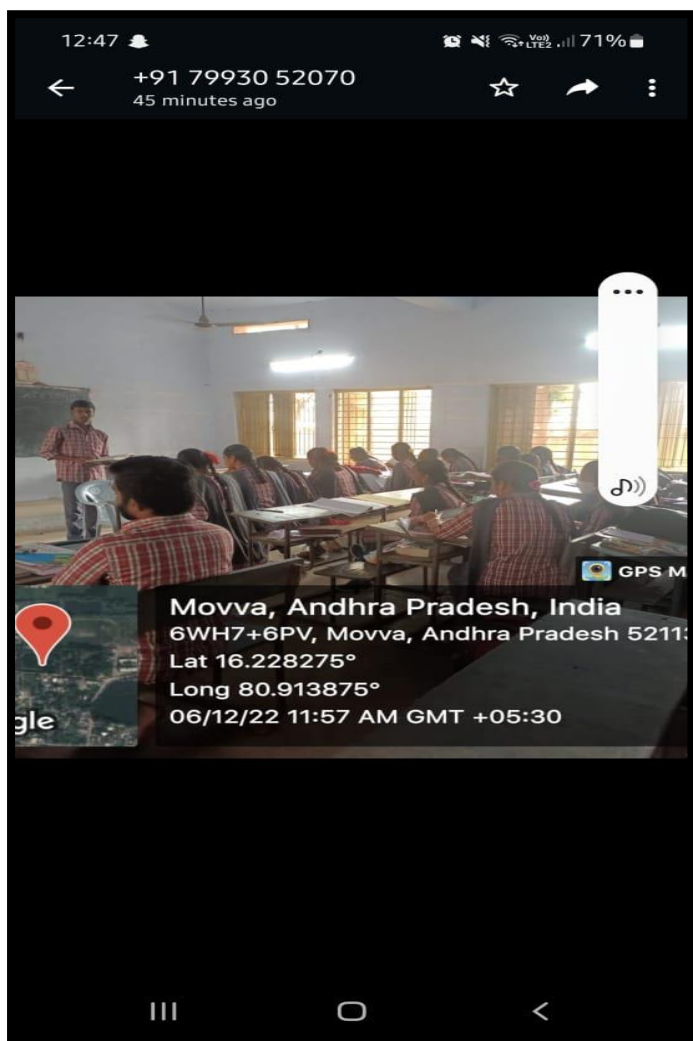

In order to impart the aforementioned advantages to the students, the Department of Commerce instituted a new practice of peer teaching by the students beginning with the academic year 2021–2022. In this curriculum, the III B.Com students practice peer teaching to the III, III, and I B.Com students. The II B.Com students teach to the II and the I Year students.

By Supriya on the topic PAPER CHROMATOGRAPHY on 21-06-2022

PEER TEACHING By P.VANI III B.Sc. in the STUDENT INDUCTION PROGRAMME

PEER TEACHING by R.PADMAPANI on the topic(Photochemistry)

PEER TEACHING BY AKHIL SIDDHARTH II B.Com on 14-11-2022

By NARENDRANADH of II B.Sc.BZC on the topic ALDOL ONDENSATION on 13-12-2022

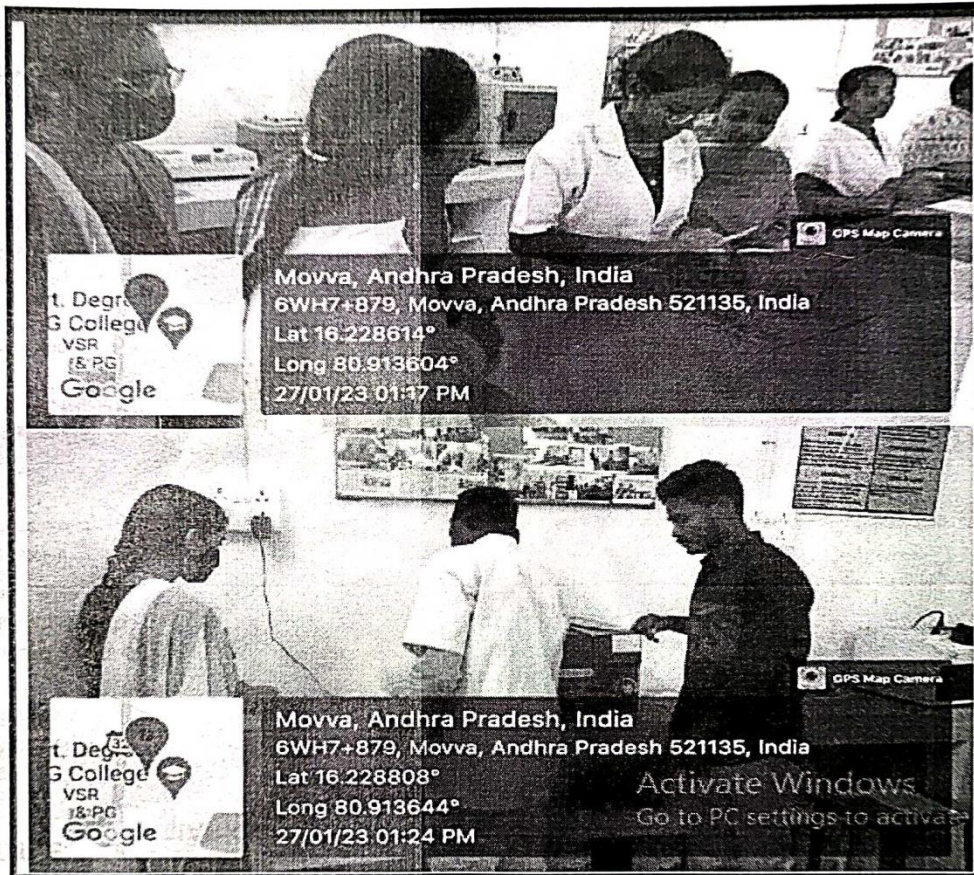

Peer Teaching

PEER TEACHING AND DEMONSTRATION

PEER TEACHING AND DEMONSTRATION Department of Biotechnology organised Peer teaching and demonstration program on 27/01/2022 to biotechnology 1st year students with 2nd year students on extraction of Starch from potato and amylase activity. Students very enthusiastically participated and learn top their more interest.
