## **International Mother Language Day (21-02-2022)**

### **INTERNATIONAL MOTHER LANGUAGE DAY**

**“If you talk to a man in a language he understands, that goes to his head.**

**If you talk to him in his language, that goes to his heart -Nelson Mandela.**

International Mother Language/Tongue Day is a worldwide annual observance held on **21 February** to promote awareness of linguistic and cultural diversity and to promote multilingualism. Mother Language Day is part of a broader initiative **"to promote the preservation and protection of all languages used by people of the world"**. **“Using technology for multilingual learning: Challenges and opportunities”** is the theme for this year 2022. This year's theme focus is to advance multilingual education based on the potential role of technology and support the development of quality teaching and learning for all. On this occasion our college Telugu Department conducted an essay writing competition on **“The Role of student in Preserving Mother Tongue”**. All the students enthusiastically participated in this essay writing competition.

Language is the key to our creative thinking and expression. We all have the responsibility to preserve, promote and pass on our mother tongue to future generations.

## National Science Day (28-02-2022)

### NATIONAL SCIENCE DAY CELEBRATION

National Science Day commemorates the discovery of the Raman Effect by Dr.C.V.Raman, for which he won the Nobel Prize in Physics. The National Science Day is celebrated on 28th February every year across the country in honour of physicist C.V.Raman's discovery of the Raman Effect, which gave Asia's Nobel Prize in the Sciences in 1930. Sir.C.V.Raman and his student-collaborator K.S.Krishnan made this discovery of the phenomenon in 1928. It was the first Nobel in Physics for a non-white person and for an Indian scientist.

The theme of National Science Day 2022 is '**Integrated Approach in Science and Technology for a Sustainable Future**'. On the occasion of National Science Day, the Department of Physics conducted Science day celebrations in our college. Science day celebrations started with the inaugural session on 28th Feb 2022 with the lighting of the lamp and paying homage to Sir.C.V.Raman. Students and faculty of our college, Junior colleges and various schools attended the programme. Our college principal, Dr.S.Madhavi presided over the session and gave a brief introduction about the significance of celebrating National research as their career and to come up with new inventions.

In this connection, Science exhibition was organized. The students from various science departments of our college exhibited working models. All the faculty, students, media and others visited and appreciated the exhibits. The Department of Chemistry, also conducted Science Exhibition and conducted experiments on Osmosis, Chromatography and Food Adulteration. They also conducted a National Level online Quiz on this occasion.

National Science Day's primary objective is to ignite an interest in science, inspire people, especially students, to perform new experiments, and make them aware of the latest developments in science and technology.

## PI Day Celebration(14-03-2022)

### PI DAY CELEBRATION

March 14 is a day to celebrate the mathematical constant. Every March 14, mathematicians, scientists and math lovers around the world celebrate 'Pi' Day, a commemoration of the mathematical sign Pi. It's the only holiday to honour a number: pi on 3.14, the beginning digits of the infinite, on repeating decimal expansion of  $\Pi = 3.1415926$ .

As the ratio of a circle circumference to its diameter,  $\Pi$  is irrational and transcendental qualities sure to bring a twinkle to any mathematician's eyes. The Department of Mathematics in association with IQAC of our college celebrated 'Pi' Day on 14<sup>th</sup> March 2022. Total 50 students participated in this programme. The department of Mathematics initiative to observe Pi day is to motivate, encourage the students of mathematics so that they get to realize the importance of the subject and the concept of PI amongst the students. "It's a fun way to enjoy math", Pi has been calculated to over one trillion digits beyond its decimal point. As an irrational and transcendental number, it will continue infinitely without repetition or pattern. While only a handful of digits are needed for typical calculations, Pi's infinite nature makes it a fun challenge to memorize, and to computationally calculate more and more digits.

Speaking on this occasion our In-charge Principal Smt. K. R. Manjula said that the importance of mathematics is not only crucial for scientists or engineers, but it helps develop skills, such as analyzing data, seeking evidence, recognizing patterns every day. It gives a chance to people have a better way of understanding or interpreting information. Sri. Surya Kumar, Lecturer in Mathematics, elaborated on the concept of Pi and its significance to resolve mathematical problems. He had remained the students that since the Pi are an irrational number and its complete value cannot be obtained, super computers are being used by the mathematics scholars to calculate the infinite numbers implied in the concept of Pi.

For those who need a refresher, the holiday commemorates not only the 16<sup>th</sup> letter in the Greek alphabet -  $\Pi$ -used in mathematics to represent the ratio of the circumference of a circle to its diameter, but also Albert Einstein's Birthday. So, let's all take a second to appreciate this coincidence.

# Mahatma Jyothi Govindrao Phule Jayanthi (11-04-2022)

## MAHATMA JYOTI GOVINDRAO PHULE JAYANTHI

Our college Political Science Department in association with IQAC celebrated Jyotiba Phule Jyanthi, the 193<sup>rd</sup> birth anniversary of Jyotirao Govindrao Phule, an Indian writer, social activist, thinker and anti-caste social reformer on 11 April 2022. We, the staff and students remembered him for his efforts in educating women and lower caste people and his role on the eradication of untouchability and the caste system, and women's emancipation and paid homage to him.

## Ambedkar Jayanthi(14-04-2022)

### AMBEDKAR JAYANTHI

Ambedkar Jayanti or Bhim Jayanti is an annual festival observed on 14 April to commemorate the memory of B. R. Ambedkar, an Indian polymath, a politician, an economist, Constitution of India, Ambedkar also advocated for women's rights and labours' rights.

Our college Political Science Department in association with IQAC celebrated Ambedkar Jayanthi on 13 April 2022 and we, the staff and students recollected his contribution to the nation and paid humble tributes to the architect of the Indian Constitution.
